### Course details

Students study in a dedicated examination closed group for 20 hours per week: every morning, plus Tuesday and Thursday afternoons. Students are also encouraged to spend their free afternoons using the Study Centre and developing their study skills. All students have regular monthly tutorials with their teacher to discuss progress and future study, weekly progress tests and student self-reflection. Up to 2 hours self-study will be set per night.

During the lessons, students study general English at an upper intermediate level. Teachers also help students to develop efficient exam techniques and provide structured exam practice, including practice tests under examination conditions, with detailed feedback on performance. The course covers all the major skills areas, including reading, writing, speaking and listening; you will also improve your grammatical accuracy and range of vocabulary.

Students will be given a mock exam at or before the beginning of the course in order to check their level, and on completion of the course they will take the examination through The London Exam Centre, which is part of our school.
